# HERE'S HOW TO PLAY

---

## STEP 1: The Choice is yours.

Press the Reset Button. The Title screen appears on your TV. Wait for the Game Option screen to appear. It contains a list of game options, numbered 1-4.

Select one by pressing the corresponding number button on the Controller Keypad.

## STEP 2: Fight the Famous Monkey.

The adventure begins in the Monkey Madness world. Jump over holes and dodge barrels thrown by Donkey Kong.

Beware of DK Junior dropping coconuts from above.

### STEP 3: Avoid the Invader's Rain.

In Invader's Rain, avoid and shoot the invaders coming from all directions while collecting powerpacks to complete the stage. The faster you collect the powerpacks, the sooner the stage will end.

On the harder difficulties watch out for the fire at the bottom of the screen. If you touch it, you will lose all of your lives.

Note that there is also a time limit. Once the invaders start to blink, one minute is left to collect all the remaining powerpacks. After that, the invaders will come after you.

## STEP 4: Enter the Ghost Zone.

In Ghost Zone collect as many cherries as you can while avoiding the ghosts. Watch out though because things speed up fast!

## STEP 5: Starting Over

When you have completed the three stages, the stages repeat with harder difficulties. How good are you?

**NOTE:** The Reset Button on the console “clears” the computer. It can be used to start a new game at any time, and can also be used in the event of game malfunction.

## the video game

John "Gamester81" Lester started playing video games at a very young age. His first ever console that he played was a Colecovision, quickly followed by an Atari 2600, and his passion for video games hasn't stopped. In 2008 John decided to start a video game review show on YouTube called Gamester81 by reviewing rare and retro video game systems and games.

Gamester81.com is dedicated to those who enjoy playing both modern and retro video games. It is a collaboration of different contributors that demonstrate a passion for gaming. From arcades, classic consoles, and modern day hits, you'll be sure to find game reviews and news that will interest you.

Joe Cody (Owner of Atari2600.com) and John Lester have teamed up to release this one of a kind new homebrew game for the ColecoVision system!
